4:00 – 4:30	Closing + Certificates		

The sessions are – UEFA Intermediate Skill based and directed to Kids under 16 who have playing experience and have natural skill levels. The 3 day course enhances the technical ability of the child, the training also implements the group tactics into their playing style and helps the child to adapt to playing systems as their skill level excels, focus on set-pieces in any role for the player and specific training as requested by the club or the individual player assessment as done by the coaches.

Our 3 day training also helps the child to physically and mentally prepare for the training drills and matches, build their characteristics as their game play role, right warm-up/stretching for their specific skill level, endurance building and specific speed training, with focus on flexibility, strength, coordination. We would try to look at recovery skills and train the participants for a conditioning training drills. Our 3 day training adds to the current playing style and game sense of the participant.

What is the experience and qualification of the coach[es]?

The coaches are UEFA licensed and accredited, they are also linked to national associations in Europe. Apart from being UEFA licensed and accredited one of the coaches is also a UEFA instructor hence, we will be using him to certify coaches and provide refresher courses to coaches of the club. There will also be a training maintenance programme structure given to the coaches so they can keep training these kids to attain levels in the coming months.

Will there be a physio or medical staff on hand during the 3 day academy?

Football Business International has a contract with the local club and it's a requirement that they [ALBANY UNITED FC] have medical staff on standby or a physio on the premises during the 3 day academy.

Is there any connection between Coaches / FBI and Major Clubs in Europe?

Football Business International has a working relationship with 22 major clubs globally and we have a pool of coaches that we use, who are either current major club coaches at various levels – Youth to Main team, or National Coaches working directly with European National Teams of different age groups. The current coach we are engaging in Melbourne is a working coach with the Dutch National U17 side, he is also very well trained in youth development and talent sourcing. Having coached at powerhouse European clubs such as Barcelona, Real Madrid, Atletico Madrid, Ajax, PSV Eindhoven as well as previous MLS Champions Houston Dynamo and Columbus Crew, our coaches bring a vast amount of experience coaching all ages from 7-17.

Driving Football To Newer Heights

How much training is with Pro Coaches? What roles do assistant coaches play?

We would like to have 75 kids per session and the kids will be divided into smaller group based on age and skill level – [groups of 8 -10]

The head coach will rotate during the sessions with all the groups and make sure each participant is engaged in the training session provided and doing the right thing, the other assistant coaches make sure that they group are continuing with the sessions to make sure, enough guidance is provided throughout the sessions. A pro coach at all times will be monitoring the participants.

What sort of gear is provided?

For the 3 day academy we will be providing a training top which we require the kids to wear for the 3 day training.

What does the kid get after 3 days?

For the 3 day academy he will have a UEFA PRO/ A level coach that would have assessed them and provided to them a SEMI PRO immediate level training. Also they get a certificate for the 3 day course and this also entitles them to a further 15 day training at either REAL MADRID FC, BARCELONA FC or CHELSEA FC ACADEMY or any affiliate academy that we work with in Europe. This will be discussed with parents in detail once we have all kids locked in for the 3 day course.

There is a proposed 15 day Europe tour with a match training and 3 friendly matches with a youth team of a major European Club who are part of our FBI programme.

What sort of meals will be offered? Will there be Halal meals available? Can vegetarian meals be ordered?

Since the clubs are handling the meals side of the academy – please direct your question to Albany United FC in terms of the meal plans - Once the kids are registered they will issue a meal menu for the 3 days.

Individual kids have different rates of metabolism so we would recommend that parents do top up or give extra muesli bars/ protein bars or PowerAde as a backup in case they feel hungry. There will be a canteen operational during the 3 day event as well.

The aim of this academy is to unleash the potential and also to undo the unconventional methods of training adopted. Each participant is in the sport development phase or skills acquisition phase. To help the participant develop the understanding of the game, increase their knowledge and understanding of attacking and defending.

Further introduce them to the different phases of attack and defence. To develop an understanding of playing with and without the ball, both when attacking and defending. This is a key aspect which if they learn at this stage will help them to develop the social aspects of the game, enabling players to acquire a reasoned understanding of the concepts of 'team-mate' and 'Opponent'.

We wish to make sure it is an experience which is a stepping stone in a budding player's career and also make football fun Let's football!

Football Business International holds regional and territorial rights in EAU, ASIA, OCEANIA and AMERICAS for most of the major football clubs and also we are looking at taking tour groups and organizing friendly matches with affiliates in Europe. We also provide residential player scholarships with all our major European Clubs and we are looking to provide the pathway from Australasia to these major entities.

Driving football to newer heights!

We are happy to answer any further questions! Just send an email to us on football@footballbusinessinternational.com.

Welcome to the 1st step into the next level for your child! Congratulations and thank you
